SA STANDARD ABRASIVES Handy Rolls-Aluminum Oxide

- Commonly used for deburring, cleaning, and polishing
- A necessity in machine and maintenance shops
- May be used with water, water based or oil based coolants that eliminate the costly degreasing of parts before polishing or deburring
- Full resin bond material for wide range of applications and longer lasting

wiha 40 Pc. TerminatorBlue Impact Bit Set

TerminatorBlue bits are impact rated for power tools and heat treated to produce a bit that lasts 120 times the service life compared to standard bits.

- TST - Torsion stabilizing technology for reduced tip stress and maximum flex torsion zone
- Minimum hardness tolerance of 61 RHC +/-1

Includes:

- **Phillips:** #1, #2, #3x25mm, #1, #2, #3x50mm, #2x89mm
- **Square:** #1, #2, #3x25mm, #1, #2x50mm, #3x89mm
- **Torx:** T15, T20, T25, T30 x25mm, T20, T25, T30, T40 x50mm, T20, T25, T30 x89mm
- **Nut Setter:** 5/16x76mm, 3/8x76mm
- **Bit Holder:** 1/4"x60mm

Order No.	Sale Price
11817-70297	\$27.95

wiha 6 Pc. SAE Color Coded Impact Nut Setters

- High visibility color coding for quick and easy size identification
- Impact rated to 700 in/lbs for max performance with impact drivers
- 6" overall length for extended reach
- Radius corners for preventing fastener head round off
- **Includes:** 1/4", 5/16, 3/8, 7/16, 1/2, 9/16

Order No.	Sale Price
11817-70486	\$47.65

wiha 39 Pc. Bits Collector Security Bit Set

- Through hardened, bits of CRM72 Premium tool steel
- Tip profile labeled on cap for easy identification
- Chrome plated satin finish for corrosion protection
- Exact fit precision machined tip for reduced cam-out

Includes:

- **Security Hex:** 5/64, 3/32, 7/64, 1/8, 9/64, 5/32
- **Security Torx:** T8, T10, T15, T20, T25, T27, T30, T40
- **Spanner:** #4, #6, #8, #10
- **Tri-Wing:** #1, #2, #3, #4
- **Torq:** #6 #8, #10
- **Square:** #1, #2, #3
- **Pozidrive:** #0, #1, #2, #3
- **Phillips:** #1, #2
- **Slotted:** 6.0, 8.0mm

11817-71990	\$86.95

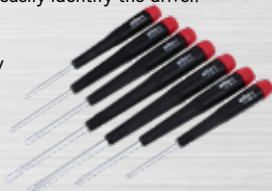

wiha 7 Pc. Precision Slotted & Phillips Screwdriver Set

Wiha precision screwdrivers feature comfortable handles sized proportionally to the blade for comfort precise control and direct molded to the blade for permanent bond. The driver tips profiles are labeled on the handles to quickly and easily identify the driver.

- Tapered handle for rapid rotation
- Smooth turning cap for optimal hand positions
- Premium quality tool steel for strength and durability
- Chrome plated satin finish for corrosion protection
- Exact fit precision machined tip for reduced cam-out

Includes:

- **Phillips:** #00, #0, #1
- **Slotted:** 1.5, 2.0, 2.5, 3.0mm

11817-26197	\$30.25

wiha 32 Pc. GoBox™ Standard Bit Set with Mini Ratchet

Standard bit GoBox features a collection of 1" impact rated bits in a variety of tip profiles including Phillips, slotted, square, torx, hex-inch, hex-metric, and a 1/4" mini ratchet that can access tight spaces other tools can't.

- 72 tooth ratchet system with 5° arc swing for smooth ratcheting in tight spaces
- Conveniently stored in a pocket sized metal case for easy storage and security
- Computer controlled heat treatment for a new standard in bit performance
- Exact fit precision machined tips for reduced cam-out
- Fast action thumb lever for quick rotation change

Includes:

- **Phillips:** #0, #1, #2, #3
- **Slotted:** 5.5, 6.5mm
- **Square:** #1, #2
- **Torx:** T8, T10, T15, T20, T25, T27, T30
- **Hex Metric:** 2.0, 2.5, 3.0, 4.0, 5.0, 6.0mm

Wellsaw Model 1318-SA, 13" x 18" Bandsaw with Semi-Automatic Operation

The PLC controller (factory programmed) manages the raise and lower functions of the saw head and the open and close functions of the vise jaw in a programmed sequence. In high volume operations this increases productivity and reduces operator fatigue and error.

Features:

- PLC controlled, full cycle semi-automatic operation
- Powered frame raise
- Powered vise
- Variable hydraulic feed control
- Zero clearance carbide guides with rollers
- Double reduction gearbox w/ perimeter drive
- Complies with DOE small motor rule
- Infinitely variable blade speeds
- Quick adjust sawing force
- Rite-Tension® blade tensioning device
- Baldor Motor® - 3HP, 3PH TEFC
 - 2HP, Single Phase ODP

- Wet cutting system, flood type
- Powered blade brush
- 16" discharge table
- 110 volts at controls
- Overload and under-voltage protection
- Precision ground vise jaws
- Quick positioning vise
- Adjustable stock stop
- Auto shut off at the end of cut
- OSHA blade guarding
- Tiger-Tooth® Bi-metal blade
- Coolant for initial start up
- Voltage and motor has to be specified
- Must Specify Electrics at the time of order

F.O.B. Ship Point

8" Industrial Bench Grinder

Built to withstand the high volume demands for even the busiest shops. These high quality machines grind, sharpen and smooth with equal precision and flawless results. CSA/CUS Certified and OSHA compliant.

- Adjustable safety shields
- Adjustable tool rest
- Heavy Duty capacitor motor
- Pre-drilled bases for mounting on stands or work benches
- Sealed bearings for maintenance free grinding
- Toggle switch with safety key
- Weight - 64 lbs

20" Disc Sander

Direct drive motor to disc for maximum efficiency, with a hand activated brake for quick stoppage of disc for maximum efficiency. Extra large sanding surface, adjustable tilting work table, and sturdy cast iron base. The swing away guard makes changing abrasive discs quick and easy.

- 20" sanding disc for larger capacity
- Forward and reverse switch
- Miter gauge for angle sanding
- Disc brake slows the machine quickly and will activate immediately to stop machine in an emergency
- Tilting table allows bevel sanding

Combination Belt/Disc Sander

Full cast iron construction for heavy duty work. The articulating table mounted on the 6" x 48" belt sander head can be used vertically, horizontally, or angled to accommodate diverse jobs. The belt head has an indexing pin with stops at 0°, 45°, and 90° and the head lock allows use at any angle in between. Removing the top guard allows contour sanding.

- 460V operation requires an additional 460V magnetic switch (part number 31A-MSA-2)
- Belt and disc tables are precision ground cast iron with miter slots for precision and rigidity

Clausing 8027J - Clausing/Colchester Geared Head Lathe

The extra heavy-duty wide bed gives our machines the capability of withstanding heavy use and excellent durability with minimum maintenance. This model features 12 different spindle speeds, making it ideal for versatile, consistent use.

- All headstock gears are hardened and ground
- Headstock shafts are splined and turn on anti-friction bearings
- Broad range of feed and thread selections are available by using three selector levers and an 8 position rotary dial
- Cross slide runs along a dovetail guide
- Precision tapered roller spindle bearings
- Chuck guard, full splash guard and leadscrew cover
- Ability to reverse leadscrew while chuck is turning for faster thread-cutting
- One year warranty backed by the Clausing Service Center
- **Longitudinal Feed Range:** 0.001/0.080 (in/rev)
- **Cross Feed Range:** 0.0005 - 0.040 (in/rev)

KURT DX6® Crossover® Vise

Combining all the great features of the world renowned Kurt D688 and 3600V vises, along with state of the art workholding features, Kurt® Workholding's revolutionary DX6® CrossOver® vise achieves new levels in precision and performance where flatness and parallelism are important.

- Features the same bed height and keyway to the stationary jaw face as the D688
- Redesigned nut with lighter weight, and a new brush seal design
- Anglock® spherical segment creates all directional alignment and reduces jaw lift for improved performance.

SECO Square Shoulder Milling - Turbo 12 & 16 Kits

High Performance Milling in Larger Depth Applications

Turbo 12 is first-choice cutter for general-purpose square shoulder milling applications. The Turbo 12 is ideal in all applications from low carbon steels to high-temp alloys. Reduce your power consumption, improve wall quality, get higher performance in sticky materials and increase ramp angles with the latest insert and pocket design of the **Turbo 16** cutters.

Kits include one cutter body, ten inserts and a wrench

SECO Face Milling High Feed 2 Kits

Gain Improved Economy in High Feed Milling

Machine up to three times faster than conventional methods. Pairing shallow depth of cut with high feed per tooth increases metal removal rates resulting in more parts being machined. The High Feed 2 comes in two insert sizes and is single sided. The diameter range begins as small as 0.500" and is excellent in all materials

P	Steel
M	Stainless Steel
