REELCRAFT

5650 OLP – 3/8" x 50' Premium Duty Hose Reel

Series 5005 reels are durable and compact for a wide range of applications with critical space requirements.

- Hose is plumbed into the base to eliminate the risk of undue stress on the swivel
- The bent tube swivel design offers a smooth hose transition onto the spool
- Swivel is nested inside the spool for protection from impact and the environment
- The reliable speed latch allows for positive locking of the spool in two positions per rotation
- All steel components are powder coated for maximum corrosion resistance
- Robotically welded steel base offers maximum strength and consistent quality
- Made in the USA

Order No.	Sale Price
11519-5650-OLP	\$324.95

REELCRAFT

RT650-OLP – 3/8" x 50' Medium Duty Hose Reel

Reelcraft's Series RT is an economical choice for a medium duty, lighter-weight, spring retractable hose reel for applications that are less demanding, yet require a product that can withstand industrial and commercial use. The industrial-grade drive spring is protected from the environment in an engineered plastic spool for longer service life. The guide arm adjusts to seven positions.

- Reinforced steel – The steel guide arm and base are stamped with ribs and gussets to ensure maximum strength and lightest possible weight.
- Full flow stress free swivel design – The full flow swivel combines the highest grade seal design and materials with bearing areas to ensure maximum service life. The hose is plumbed into the base to eliminate the risk of undue stress on the swivel.
- Quality finish and corrosion resistant – Individually powder coated components along with the composite spool offers the maximum protection from premature corrosion.

Order No.	Sale Price
11519-RT650-OLP	\$275.95

REELCRAFT

L 4545 123 3A – 12/3 45' Premium Duty Single Receptacle Power Cord Reel

Reelcraft's Series L 4000 NEMA 5-20R single receptacle power cord reel includes a 20 amp single receptacle. The reel is supplied with a 4-5 foot pigtail that includes a NEMA 5-20P inlet straight blade plug. For indoor, non-weather tight applications only. *UL/CSA approved*

- Reinforced steel – The robotically welded steel base offers maximum strength and consistent quality.
- Heavy-duty collector ring – A robust collector ring assures maximum conductivity current flow.
- Long life drive spring – Decutching arbor virtually eliminates possibility of spring damage due to reverse winding. Only the highest quality spring steel is used and conditioned to ensure there are no imperfections offering maximum service life.
- Quality finish and corrosion resistant – Individually powder coated components offer maximum protection from premature corrosion.
- Made in USA

11519-L-4545-123-3A	\$498.95

REELCRAFT

7850 OLP – 1/2" x 50' Premium Duty Hose Reel

The Reelcraft Series 7000 spring retractable hose reel is very robust and ideal for the most demanding applications. The base and guide arm are constructed from high-grade steel and engineered with structural forms and gussets to yield the greatest amount of strength.

- Individually powder-coated steel components provide maximum protection from premature corrosion
- Inlet hose is plumbed into the base to eliminate the risk of stress on the swivel
- Low-pressure 1/2 in. x 50 ft. PVC hose included; hose is for air or water service only
- Guide arm adjusts to seven positions
- Base plate, upright, and guide arm are constructed from 11 gauge steel; the spool is 16 gauge steel
- Additional Series 7000 spring retractable hose reel models include stainless steel, controlled return, enclosed, twin hydraulic, fuel delivery, pressure wash, and gas/cable welding
- Made in the USA

TRUE TEMPER® Snow Pushers and Shovels

18" Poly Combo Snow Shovel (1627200): This shovel blade is lightweight and ideal for both shoveling and pushing snow. Its steel wear strip extends the life of the blade and helps remove stubborn patches of snow and ice.

24" Poly Snow Pusher (1603500): This pusher is ideal for clearing light to medium accumulations of snow. It is designed for easy use and fast snow removal. Clear driveways and walkways in just a few passes!

36" Industrial Grade Snow Pusher (1663600): The plow shape of the blade helps you push away both snow and slush from wide areas. The blade is made from UHMW Nylon, a material that is long-lasting and wear resistant to withstand the demands of heavy snow removal. Versa Grip, an ergonomically designed grip that accommodates multiple hand positions for pushing, scooping and unloading piles of snow. In addition to the Versa Grip, your hands are also secured with the anti-slip grip provided by the TPE resin-covered steel handle.

RIDGID 535 Threading Machine

The new machine is as rugged as the machine you have come to rely on with added refinements that increase productivity and value. A 100% larger chip tray and 75% larger oil reservoir make the new 535 ideal for longer uninterrupted threading. The 535's high clearance carriage makes the threading operation easier and its 23% larger top cover area is ideal for keeping tools and work related materials handy.

- New Speed Chuck™ with rocker-action jaws. Provides smoother operation and ability to center and grip the workpiece instantly.

Specifications:

- Motor: 1/2HP Universal, Reversible single-phase 115V, 25-60 Hz, 15 Amp
- Motor Control: Heavy-duty FOR/OFF/REV switch with integral foot switch
- Spindle Speed: 36RPM no load (standard)

Standard Equipment:

- Foot switch
- (1) No. 811A Universal Quick Opening Die Head
- (1) No. 341 Reamer
- (1) 820 Cutter

KURT DX6® Crossover® Vise

Combining all the great features of the world renowned Kurt D688 and 3600V vises, along with state of the art workholding features, Kurt® Workholding's revolutionary DX6® CrossOver® vise achieves new levels in precision and performance where flatness and parallelism are important.

By every measure, this is a better vise than their own D688. This vise features the same bed height and keyway to the stationary jaw face as the D688, a redesigned nut with lighter weight, and a new brush seal design. The bearing pack is larger, stronger, and more durable than their other designs, and their Anglock® spherical segment creates all directional alignment and reduces jaw lift for improved performance.
