

W644JZ ELECTRONIC DEPTH GAGE

Starrett®

PRECISION HAND TOOLS

0-3"/0-75MM

This gage is now available with a W2900-5-1 Wireless Indicator for a digital readout and wireless data collecting option. Used for long range applications, they are accurate and simple to use. Put the contact on the work to be measured and push the gage head down until the base stops at the reference point and take your reading.

Furnished with three rounded-end-contact points to cover the range. Flat end contact points are also available on special order.

The zero setting can be checked with the shortest contact in place by pushing on a flat surface.

FEATURES AND SPECIFICATIONS

- Intuitive design and layout—easy to learn and use
- Positive tactile-free button activation
- Origin set, Zero set
- Auto off after 20 minutes of nonuse
- Inch/millimeter conversation
