## UltraSoft Diamond-Plate SpongeCote - Black Anti Fatigue Mats

Group 414BK

Outperforms other Diamond-Plate workstation mats in the market. The unique Nitricell sponge base delivers twice the resilience and three times the life expectancy of simple PVC sponge anti-fatigue mats. Pre-beveled edge assures a perfect lays flat quality and the bevel extends the sponge within 1.5 inches of the mat's surface for 20% more standing area than other anti-fatigue mats.

Designed for comfort and optimized worker productivity, these mats are exceedingly popular among standing workers and have industrial strength for multiple shift operations. The double-thick Nitricell sponge base is a Nitrile composite for exceptional comfort, rebound and long life.

Ideal for high traffic areas in heavy manufacturing and in high traffic fulfillment operations.
